

Get your Geek on!

With the Pocket Geek app, you will have access to the following features:

Locate, Alert, Lock and Wipe⁽¹⁾

Device in hiding? Pocket Geek can send an email with the location of a lost or stolen device, sound an alarm (even if it's on vibrate or silent), remotely lock your device or wipe sensitive data.⁽¹⁾

Device Monitoring

By monitoring the health of your device, Pocket Geek can help diagnose problems and help keep your device performing at its best.

Geek Tips™

Get the best advice so that you can master your device.

Troubleshooting

Self-help pointers that lead the way on how to solve small issues before they become big problems.

Geek Tools™ transform the way you interact with your device.

Data Monitoring

Monitor your data so you can avoid overages.

Battery Forecast

How much life do you have left in your battery.

Storage Manager

Learn how to create more storage space.

Speed Test

Test Wi-Fi vs. cellular data speeds.

Battery Boost

Find out how to get more time out of your battery.⁽²⁾
